Anchor Boom

Anchor Boom facilitates dropping anchor from the seated position.

Casting Yoke

Casting Yoke gives additional stability during for stand-up fishing or poling. It also stores neatly in the recess of the deck when not in use.

Adjustable Foot Rests

Providing proper fit and performance.

High Back Seat

Adjustable seat back provides comfort and performance.

Quick Release

Outriggers are quickly removed for transport and storage.

Flush Mount Rod Holders

Each Freedom 14 comes standard with two rod holders.

Storage

Each outrigger is equipped with watertight storage.

On-Board Storage

The hull has a recess for storing the 12' push pole and is ideal for a scuba tank, snorkel gear or fishing box.

Outrigger Levers

Independent levers (2) easily deploy the outriggers from the seated position.

Outriggers

Outriggers are removable for transport and storage.

Freedom 14 Kayak

Freedom Hawk Kayaks are designed by avid fishermen and outdoor enthusiasts who have incorporated unprecedented innovation into their kayak designs. Its patented easy-to-deploy outrigger system and related features provide a solid sporting platform that really works. Imagine switching from kayak efficiency and simplicity to Jon Boat stability with the flick of a lever. The Freedom Hawk is the only kayak to truly let you "Stand and Fish" with 100% confidence. Switch from cruising to fishing in seconds. Don't settle for clumsy add-on outrigger. Get the real deal, a kayak that's designed from the waterline up to incorporate a stabilization system that's easy to deploy.

The **Freedom 14** provides the ultimate sporting platform in the world of paddle craft. Freedom Hawk Kayaks excel as small watercraft for Fishing, Duck Hunting, Scuba Diving, Snorkeling, Swimming and Wildlife Photography.

Key Features

Outriggers: Outriggers are easily deployed and retracted from the seated position. They also offer a quick disconnect for storage and transport.

Rod Holders: Two flush mount rod holders come standard.

Anchor Boom: Allows for anchor deployment from seated position.

Standing Assist "Grab Rope": Bow mounted rope aids in transitioning from sitting to standing.

Self Bailing: Scupper Holes & Scupper Hole Plugs to control cockpit water.

Casting Brace: Provides additional stability and conveniently stores in bow of kayak when not in use. The kayak can be paddled with Casting Brace raised.

Optional Push Pole: The 12' long sectional design stores in custom recess in the floor of kayak when not in use.
